

# Historical Texts

The new platform for Jisc Historic Books

BETA release in early May 2014

## New name - Historical Texts

Following agreement from the Advisory Board, the new name reflects that the current website contains more than just books, for example pamphlets and periodicals, and as future collections are added, so the non-book content may increase.

## Same collections as Jisc Historic Books

Historical Texts brings together over 350,000 late 15th to 19th century texts from three collections: Early English Books Online (EEBO), Eighteenth Century Collections Online (ECCO) and 19th century books from the British Library collection.
